MEDICAL MATERIEL

Air Force Medical Logistics Office (AFMLO) Home Page on the World Wide Webb (WWW)

AFMLO has finally joined the WWW! To establish connection with the AFMLO home page, use MOSAIC or Netscape. The document URL is: <http://www.amedd.army.mil/afmlo/>. If you need assistance, call AFMLO/FOI at DSN 343-7289. (AFMLO/FOA, Rita Miller, DSN 343-4158)

Medical/Surgical (Med/Surg) Distribution and Pricing Agreement (DAPA) Scope Expanded

The Med/Surg prime vendor (PV) DAPA scope has been expanded to include disposable/consumable products (toothpaste, bathroom tissue, etc), routine reusable Med/Surg items (stethoscopes, etc.), and hand held surgical instruments that are supplemented by portable surgical instruments with electrical characteristics or battery operation. Defense Personnel Support Center (DPSC) has also added diagnostics, chemicals and reagents. Major equipment items are not included. DPSC point of contact is Linda Flatley at DSN 444-3201, or commercial (215) 737-3201. (AFMLO/FOCO, TSgt Bryan Matthews, DSN 343-4172)

Medical Logistics Regional Workshops Map

At one of the recent workshops, it was requested that we reprint the Medical Logistics Regional Workshop map. So, **Attachment 1** is a copy of the regional workshops map. (AFMLO/FOCS, Mr. Dale Lyons, DSN 343-4017)

New Distribution and Pricing Agreements (DAPAs) Mean Savings and Choice

In response to specific customer requests, DAPAs have been recently entered into with the following firms:

Barre-National Labs
Cardinal Enterprises
C.B. Fleet
Ciba Vision Ophthalmics
Colgate Oral Pharmaceuticals
Muro Pharmaceuticals
Par Pharmaceuticals

Please consult the product and price comparison (PPC) on your distributor's electronic catalog to determine specific product status, and also notify your prime vendor (PV) of your expected demands. Defense Personnel Support Center (DPSC) point of contact is Michael Fowler at DSN 444-5731 or commercial (215) 737-5731. (AFMLO/FOCO, TSgt Bryan Matthews, DSN 343-4172)

Department of Defense/Food and Drug Administration (DOD/FDA) Shelf Life Extension Program Test Results Projects

96-01, 95-12, 95-11, 95-10, 95-06

Attachment 2 is a list of items tested by the FDA and the results of those tests. Please annotate the attachment to indicate quantities extended by your account. You may want to make a copy of the pages you have annotated for your records. Return to AFMLO/FOCO, no later than 31 May 1996, using the "mailer" provided on page 41. Negative replies are required either by telephone, facsimile, message, CC-mail, or by mailing page one of the attachment indicating "negative reply."

Based on the test results, the expiration date extensions are applicable to War Reserve Materiel (WRM) and peacetime stocks, provided these items are properly stored within the manufacturers' prescribed and labeled storage conditions. Only those lot numbers listed are eligible for extension, with the exception of Travenol, Abbott, Roche, and Astra lot numbers. Procedures for remarking containers are outlined in AFMAN 23-110, Volume 5, Chapter 13.5. Record FDA 224-87-4004, 10 December 1986, with the project number as the authority for extending these expiration dates. You should update your records in accordance with AFM 167-230, Sections 13 and 19. (AFMLO/FOCO, Mrs. Bonnie Phillips, DSN 343-4170)

Transfer of DASH Computers

Please ensure that physical transfers of DASH hardware and peripherals are documented on a DD

Form 1149 before the move occurs. A transfer can mean a move as short as from one building to another on the same installation, or across the country, or out of the country.

The location of your DASH equipment is the location of record for warranty purposes. If you move your equipment without timely notification to the vendor, that piece of serial numbered equipment will not be on the warranted list of the local technicians at the new site, and you may be refused free maintenance service. Technically, the government may be obligated to pay \$150/hour for unscheduled maintenance. It is a simple matter to keep your free maintenance agreement intact; complete the DD 1149 and send it to the following address before you move the equipment:

**Conwal Inc./ATTN: Lloyd Colio
5109 Leesburg Pike Suite 80
Falls Church VA, 22041**

The DD Form 1149 will then be sent to the vendor (and software application technicians) who will complete a warranty agreement for your relocated equipment at the new site.

When equipment is relocated, cables and keyboards and other parts may be lost or damaged. This kind of loss or damage is not covered by the maintenance contract. It will often be more cost effective for the local user to replace the lost or damaged part, but if that is not possible please call the DMLSS support team and they will try to locate replacement parts. Any questions concerning this may be directed to Lloyd Colio at (703) 824-8742. (AFMLO/FOCO, TSgt Bryan Matthews, DSN 343-4172)

Did You Know?

Discount terms offered by DBPA vendors can save the government money if certain conditions are met.

A discount of two percent, 15-net 30 days means finance can take a two percent discount if the invoice is paid within 15 days. The discount, however, is based on the date of the invoice, not the date the invoice was received. Discounts shown as net 30 require that payment be made not later than 30 days from receipt of the invoice or date the receipt is processed in Medical Materiel.

What can you do to take advantage of these discounts?

1) Check the discount terms on the Federal Supply Schedules (remember, FSS discount terms supersede the BPA).

2) List the discount terms on the purchase document.

3) Process your receipt as soon as an item is received.

4) Follow-up on the "Items Received Not Billed Report." For more information on discounts, contact your local DAO.
